

2014 Warroad Estates Men's League

Men's league will continue this year with the same format as past years. Two man teams will compete against each other in a 9-hole match play event. We are asking that you submit your entry for Men's league by the 8th of May which will be the first night of league. This night will be an informal organizational night and the first official match will be played May 15th. The fee this year for men's league will not change (\$50.00 per man). The fee covers weekly prize money and course events. If you are new to league we will explain the format during the first official night of league.

Handicaps will be determined using the handicap system provided by the course (\$24.00 fee). If you do not have a handicap at the start of the season, one will be assigned and adjusted as the season progresses. Men's league consists of many different skill levels and your handicap is how the matches remain competitive. We encourage and invite all skill levels to men's league. The handicap system is used to make each match competitive even when skill levels vary.

Not a member? No worries.

We will be offering a non-member league participation fee this year. If you would like to play league the fee is \$10.00 per week to include, men's league 9-hole round and ½ cart. Other optional fees will be weekly skins event \$3.00. Dinner is served after every league night for \$10.00.
